

One of the fastest ways, and which will allow you to choose the ring size without making a mistake, is to calculate the circumference of a ring you already own. Compare the result obtained with the data in the table and you can choose the right size for you. Each model, in fact, is available in different sizes and it is important to choose the one of the finger on which you are going to wear the ring.

Measure the circumference of your finger

In case you do not have a ring that you can measure, you can take the measurement of the circumference of your finger with a tape measure, put it around your finger, compare the circumference with those in the table and then calculate the diameter and compare it with the diameter of the ring which must be the same.

MISURA ITALIANA	DIAMETRO CM	CIRCONFERENZA CM
8	1,53	4,8
9	1,56	4,9
10	1,6	5,02
11	1,62	5,09
12	1,65	5,18
13	1,68	5,28
14	1,72	5,4
15	1,74	5,46
16	1,78	5,59
17	1,81	5,68
18	1,85	5,81
19	1,88	5,9
20	1,92	6,03
21	1,95	6,12
22	1,98	6,22
